ABOUT US

FUANPETS, we are headquartered in Suzhou and run a wholly-owned manufacturing factory in Anhui. Supported by an independent QC team, we retain full control over production, focusing on innovative R&D and global supply of pet products.

We deliver complete in-house manufacturing across three core product lines: sewn pet beds & plush toys, cat scratchers and cat trees. All production adheres to international product safety standards. We closely oversee every phase from sample confirmation through bulk shipment.

Backed by our captive manufacturing facility, we provide agile sampling support, unwavering quality assurance, dependable lead schedules and compelling commercial terms. Our goal is to cultivate enduring, sustainable partnerships with global brand owners.

Complementing our core manufacturing offering, we deliver value-added procurement facilitation for overseas buyers, encompassing product sourcing & supplier vetting, third-party quality surveillance, and coordination of cross-border customs clearance formalities.
